* TECH Issues *

Teachers are reporting concerns that many students are misreporting technology issues. Specifically, some students are in class without their cameras turned on while others are reporting that they are unable to work at all because of technology issues. Students, this is a gentle reminder that all technology issues must be reported to tech@westex.org. If you do not submit a ticket via the tech@westex.org email address, then you are not considered as having a technology issue. Furthermore, being dishonest and making false claims that you have a tech issue when in fact you do not, will involve disciplinary consequences. As a reminder, your camera must be turned on during class so that you teachers can see your beautiful faces and make sure that you are engaged with the lesson. I know that this likely only involves a small handful of students, but we wanted the entire student body to be aware of our expectations. I also want to remind you that your teachers are working extremely hard so please cooperate and do not give them extra work.

Thank you.
