# Enrichment Tutorial

WE High English Teacher Mr. Aaron Myerson entices all students to join his December 9th Enrichment Tutorial by writing:

“Have you ever wondered how Captain America appears to run so fast in *The Avengers* films or how characters seem to defy gravity in *The Matrix*? How do actors seem to deliver punishing punches and kicks to each other's faces, and then walk away unscathed? It's all about practical effects, hidden wires, camera angles, tricks of perspective, computer graphics, and a lot of specialized training. This film studies lesson will allow you to take a peek behind the scenes of your favorite action films to see how stunt performers, actors, technicians, and other film crew devise specific shots and effects to craft your favorite scenes.”

With the change in our bell schedules, Enrichment Tutorials will now occur on Wednesdays at 11:00 a.m. via Zoom.
